result. The best canvas is the Volcano, indubitably. No. 20, "Coral, Sand and Water," is strong in the color effect. Old Union street, Honolulu, attracted a great deal of attention from the kamaainas present, as a truthful presentment of the old time street. Rainbow Falls is a happy effect, and No. 27, Hawaiian Girl, has excellent middle distance and perspective in color and handling. There is a breezy atmosphere in this study that is delicious.

First Night at the ically has caught by earnest study, more of the local color and atmosphere of these islands than any artist who has visited these shores. His detail studies of lava and volcanic effects possess a masterly technique that should and will make them valuable acquisitions to the gallery of the connoisseur. The court yesterday issued an order as follows:

"In the matter of Henry E. Cooper, the court desiring the benefit of full argument herein, pro and con, doth and Frank E. Thompson, Esq., of the Honolulu bar, to appear in said matter as amici curae, and to argue the same in their discretion. This is also to apply in the matter of E. P. Dole. L. A. Thurston and J. A. McCandless.'

Summons have been returned showing service upon all four of the subpoenaed persons by High Sheriff Brown, and in response to the order to each to appear and show cause why he should not be compelled to give testimony in regard to the charges of bribery against members of the Legislature, the Attorney-General, the ex-Superintendent of Public Works, the Secretary of the Territory, now Acting Governor, and L. A. Thurston, will stand before the court to hear his ruling.

The argument of Mr. Fitch and Mr. crowded with lawyers and spectators. The fact that it will be Mr. Fitch's first appearance in court will also add interest to the matter. The question of high official privilege will be argued

and discussed warmly and exhaustively. It is understood that three witnesses whose testimony is sought by process of law, discussed the bribery question in a cabinet council, and that they will claim they are not privileged to testify in regard to information obtained in gan, Dr. and Mrs. Moore, Mrs. Yarnd- their capacity as heads of departments.
